iv) In partnership with Ramblers Cymru, Carmarthenshire County Council have received funding from the National Lottery and the Welsh Government to continue our successful Public Rights of Way volunteering project in Carmarthenshire.

This stage of the project will empower volunteers to adopt paths in their local area. We will recruit and train volunteers to report problems, as well as providing a maintenance toolkit to resolve issues with waymarking and overgrowth. We will also provide training to volunteers to use battery powered line-trimmers and brush cutters to clear larger areas of overgrowth. Volunteers will be able to become a custodian of paths in their local community and play a key role in preventing small problems from becoming major obstacles. This role is flexible and impactful, and anyone involved will receive ongoing support and communications to ensure this role is carried out safely and responsibly.

In addition to Adopt a Path, we're also carrying out group tasks that bring people together for social and impactful volunteering on Rights of Way. These include guided 'Snip and Stroll' walks and Path Action Days supported by CCC Rangers.

2. **Welsh Government**

The Democracy and Boundary Commission Cymru (DBCC) has been asked to explore attitudes and perceptions of Town and Community Councillors with consideration to their views on the size and structure of such councils and how they vary according to local circumstances.

This online questionnaire forms one part of a review and will ask for information about your area, and your views and experiences of being a Councillor. The questionnaire is being carried out on DBCC's behalf by Opinion Research Services (ORS), an independent research company and will take around 15 minutes to complete. Your feedback will help DBCC make recommendations on whether there is an appetite for a review of the size and structure of such councils across Wales. We welcome and encourage responses from individual councillors as well as agreed submissions from Councils as a whole.

The information you provide will be processed securely by ORS and whilst Council based responses will be shared with DBCC, any individual responses will be anonymised.

d) Hywel Dda University Health Board – Clinical Services Plan: Stroke Services (Phase 2 Consultation) Phase 2 of the consultation on stroke services launched on 28 May 2026 and follows the first phase of the Clinical Services Plan consultation and decisions made at the Health Board's Extraordinary Board meeting in February 2026. At that meeting, future service models were agreed for eight of the nine services included in the Plan; however, no decision was made on stroke services. The Board recognised that current stroke services are fragile and do not consistently meet clinical standards.

Following consideration of the original consultation options and two alternative proposals submitted during the consultation, the Board concluded that no single option addressed all identified issues. A preferred option has therefore been developed by combining two community-generated proposals. This includes:

- A 24-hour acute stroke and rehabilitation unit at Glangwili Hospital;
- A stroke rehabilitation unit at Bronglais Hospital; and
- A treat-and-transfer model at Bronglais, Prince Philip and Withybush hospitals, where patients receive initial treatment before transfer to Glangwili Hospital or, where clinically appropriate, directly to a thrombectomy centre in Cardiff or Bristol.

The Phase 2 consultation seeks views on whether people support the preferred option and the reasons for their views. Those who do not support it are invited to comment on the previously considered options. Respondents are also asked to identify any additional factors that should be considered, including equality impacts and Welsh language considerations.

The consultation runs until 26 July 2026 and is open to patients, carers, staff, volunteers, partner organisations, residents of the Hywel Dda area, and people living in neighbouring health board areas. The Board will consider evidence and feedback from both phases of consultation before making a final decision later in 2026.

Members of the public can also attend drop-in engagement events to learn more about the proposals, discuss them with representatives, and share their views.
